

Dattamza is introducing its first newsletter on Data Management and Governance. Cheers to all the avid patrons of the DABlog. On your request, here is the first version of newsletter.

Issue 1

Volume 1

Year 2017

Data Management

I will be actively connecting with the esteemed readers on their requests for publication, Surveys and other resources.

FOCUS

DATA PRIVACY MANAGEMENT

ADDRESSING THE GDPR NEEDS OF EUROPEAN FIRMS

Most organizations have grown in-organically over the past few years with mergers and acquisitions where planning for data privacy lacked the focus. Moreover, there is no account on the growing private information that is collected, or was collected from customers, employees and third parties. Most of this personal information is vulnerable to threats and events of malicious theft, accidental disclosure,

failure in appropriate usage, non-compliance with regulations. This increasingly is a concern to the regulators and organizations equally. An outcome of the current privacy environment is the General Data Protection Regulation (GDPR) in EU. Read more and download your GDPR toolkit from dattamza

GETTING THE MOST FROM OUR RESEARCH

WE ARE ALL SET TO RELEASE THE BOOK "DATA MANAGEMENT AND GOVERNANCE" NEXT MONTH

FOR THE PAST FIVE YEARS, ORGANIZATIONS HAVE STARTED ACTIVELY EMBRACING THE BENEFITS OF MANAGING THEIR DATA AS AN ENTERPRISE ASSET. THESE BENEFITS RANGE ANYWHERE FROM:

☒ MANAGING REPUTATIONAL RISK

☒ REDUCING REGULATORY LOSSES

☒ ACHIEVING OPERATIONAL EXCELLENCE

☒ ENABLING REVENUE STREAMS
